

**Nov. 3-4, 2021
TWO-DAY VIRTUAL EVENT**

July 31, 2021

Dear Local School:

The 2021 Public Service Career Expo, scheduled for November 3-4, 2021, is going **VIRTUAL** this year! Cities and counties across the Kansas City region are once again joining forces to co-sponsor this high-impact event giving students the opportunity to interact with local public sector employees in 10 different public sector career areas.

We are as excited as ever to carry out the event's purpose, which is ***"to raise awareness of the variety of exciting and meaningful career opportunities available locally within the public sector and to generate increased interest among students to consider pursuing a future career in public service."***

During this two-day event, schools throughout the region can explore careers in law enforcement, corrections, fire/EMS, public works, parks & recreation, information technology, public administration, human services, courts, legal, and community development. This new virtual format will enable students to attend the variety of live, interactive sessions through our online platform. Schools are welcome to attend as many as they choose over the course of the event.

Registration is now open for all schools (public, private, charter, and homeschool) who would like to reserve a spot. One "registration" is needed for each classroom that will participate. (*i.e., if a school plans to "show" the event in three different classroom locations, then three teacher registrations will be needed to enable us to provide three separate logins*). Click [here](#) to register for this free event.

Visit our event website at www.careerexpokc.org or contact me at avaughn@marc.org for more information.
